Gentlemen:

We enjoyed your discussions on TV Saturday night very much.

One question that I would like to ask is: What happened to the MC at Ruby's Carousel who placed Oswald in that establishment several nights before the assassination? The report came over TV just once. Also Ruby is supposed to have been operating that Carousel for some owner. Does any one know who the owner or owners were? Could there be any connection between that Carousel and the one Bobby Baker opened in Maryland?

Very truly yours,

Mrs W. B. Richter
